

Preliminary Program

Crazy Hash Trip 2022

Montenegro 🇲🇪 & Albania 🇦🇸

(+ 🇷🇸 🇮🇲 🇮🇷 Prelubes)

Concept of Crazy Hash Trip 22

Prelubes in Dubrovnik, Belgrade & Skopje can be seen as individual holidays - Do UR own thing. No bookings or detailed program are set by TSL. Of course U R encouraged to do joint dinners, runs, hashes, etc, but not organized by TSL.

The rest of the Crazy Hash Trip will follow below program (maby). There will be some hopp & lek (free time) in the program so U can do UR own thing as well. This is of course combined with pre booked meals and hashes of course . Most meals and drinks are pay as you go, but those that are time critical are included, like the hashbus Budva to Tirana and during the full day hashtrip in Tirana. Hashdrinks and common transports are included.

Budva

Budva, Astoria Hotel in bottom left corner behind the wall

Budva is a coastal tourist resort in Montenegro. It is often called *Montenegrin Miami*, because it is the most crowded and most popular tourist resort in Montenegro with beaches and vibrant nightlife. Budva is developed around a small peninsula, on which the old town is situated. There are as many as 35 beaches in the Budva area. So if U have some spare time before the craziness begins U can plunge in the sea and be lazy at one of the beaches. Maybe try to get lost in the old town or walk the city walls or venture away and walk along the boardwalk to Mogren beach or take a quick boat trip to Hawaii (yez, relly).

If U wanna be cultural and visit an UNESCO world heritage town from Venetian time, take a local bus for 45 min for ca 3€ to Kotor. A picture perfect old town right at the only fjord in the Mediterranean.

Thirsty? The Ministry of Propaganda would like to suggest:

- *Kuca Pub (4.8)*
- *Old Town Pub Budva (4.8)*
- *Snack Bar Vihor (4.8)*

Stari Bar

Stari Bar, old town of Bar

The old town of Stari Bar, the first stop on the Hashbus has seen its fair share of troubles. Over the centuries it was taken over by the Venetians, the Serbians, the Hungarians and the Ottoman Empire. The scene of a siege in 1877, it was finally reclaimed by Montenegro from the Turks after the locals bombed the aqueduct into the town and cut off the water supply.

One hundred years later, in 1979, that same aqueduct, since repaired, was destroyed again by a major earthquake and the community was abandoned.

Today the Old Bar lies in ruins like a Pompeii in the Balkans...

First we head to the most important part of the old town the Stari Bar Fortress. Entrance is included in hashcash. Stroll around and after maby get a souvenir or a Beer in Bar.

Krujë

Krujë, Old market

Krujë is a small old city that has been populated since the 3rd century BC, it was also home to the eponymous Alban tribe which gave name to the country as well as Gjergj Skanderbeg, the national hero of Albania.

The Old Bazaar of Krujë dates to the 17th century and is known by the locals as Derexhiku. It was built approximately 400 years ago and had about 200 shops starting from near Krujë City Hall to the entrance gates of Krujë Castle. The shops line the street on both sides creating roads of roof-covered storefronts whose sloping roofs create an arcade along its length. In the Old Bazaar you can find objects and handmade items from traditional artisans as well as antiques collected from Krujë and the surrounding areas. The best tourist shopping place in Albania.

Krujë Castle is located at the top of a craggy mountain 680 meters above sea level. From the castle there is a view of broads... no, that should apparently be *broad views*. The castle features an arched tunnel as its entrance and once inside you can find castle remnants, the watch tower, two museums, restaurants, and homes that are still occupied to this day.

Tirana

Tirana, Skanderberg square - Lot boutique hotel is out of picture to the right

Sulejman Pasha Bargjini, established the city in 1614. His first constructions were a mosque, a bakery and a hamam (why not a brewery?). Tirana was proclaimed capital in 1925.

Many tourists usually find Tirana a charming city, with both cosmopolitan and small town feelings, and a lively night life. Unpaved streets host brand new Land Rovers, iPhone-toting youngsters rub shoulders with street vendors peddling all manner of items, and gleaming glass towers look down on abandoned construction projects. However, Tirana suffers from pollution problems mainly due to the rapid increase in cars in the city and continuous construction. Tirana is undergoing a major renovation from its communist days. Many of the ugly dull buildings have been repainted, but a lot of work is left to be done. English is rapidly gaining steam as the second language of the city with the youth, but many older residents also speak Italian.

Albanians are very hospitable towards foreigners – crime is rarely if ever directed towards foreigners and the costs are very low by regional standards. The worst experience you may have is with the erratic driving style of Albanians.

The city centre is small enough to be explored through walking, but beware that there is no continuity in sidewalk width, construction material or condition. Sidewalks frequently end abruptly, have large holes or are very narrow. Pay attention while running/walking or you may end up spraining your ankle or falling in a hole and never seen again.

Time for a beer? It's always time for a beer! Why not try one of the Ministry's best selections:

- *Illyrian Saloon (5.0)*
- *Kaon Beer (4.9)*
- *Public Beer (4.9)*
- *Si Dielli (4.9)*
- *New Irish Pub (4.9)*
- *Hops Bar (4.8)*
- *My Way Bar (4.8)*
- *Local Kitchen & Beer Bar (4.7)*
- *Komiteti Kafe Muzeum (4.6)*
- *Oping's Cocktails & Beer (4.6)*
- *Duff Sports Bar (4.4)*
- *Rehat (4.3)*

Tips 'n Tricks

- ❑ Bring Ur mug, secret drinking vessel for hashbus, passport, yellow T-shirt, ticket, underwear, toothbrush and € cash for payment in Montenegro and for exchange to lek in Albania.
- ❑ Make sure you have good medical travel insurance just in case you fall and break a leg.
- ❑ Use the Hash.se app or web to get info, maps and check in on hashes and get updated.
- ❑ Use Crazy FB group page 4 general updates and bad miscommunication and 2 share photos.
- ❑ Download Google offline maps on WiFi B4 U leave home.
- ❑ Check U R data roaming deal and B4 getting to Montenegro & Albania. Turn it off – it's expensive as hell – or get local SIM card (see below).
- ❑ Moneybrother, card is fine in 🇲🇪, 🇮🇹, 🇷🇺 but cash is king in Albania and you may be charged extra for using a card if they even accept it.
- ❑ Bring € and change to lek at exchange kiosk in Albania or take out lek at ATM, but be aware of hefty hidden fees. Alpha and Credins Bank seem OK, but Raiffeisen charges 5€ per withdrawal.
- ❑ Montenegro use euro despite not being in the EU. 1 € = 10.93 SEK
- ❑ 1 Albanian lek (ALL) = 0.09 SEK – So roughly 10 lek = 1 SEK
- ❑ Recommend to carry copy of passport for police.
- ❑ Don't wave cash in public – bandits like it. Wave sweaty underwear for defensive purposes.
- ❑ Drink beer from tap, but water from bottles – tap water may be safe but taste like swimming pool after a eurohash.
- ❑ Travel light if possible, all bags will go in hashbus.
- ❑ Bring small backpack with change of warm clothing on hash in Tirana.
- ❑ Don't leave valuables on bus or transport, carry along hidden.

This is included in Hash Cash:

- ✓ Bus transfer 6/10 to/from Hash in Montenegro.
- ✓ Up to 3 Travel Hashes including DS and circle beers & snacks.
- ✓ Bus travel Budva-Tirana on 7/10 including stops & lunch with 1 beer (other drinks extra or BYO).
- ✓ Full day hash trip 8/10 including transport, cultural entrance fees, meal with 1 beer.
- ✓ Lots of bus riding, craziness, old bunkers, confusion, waiting at border control, minarets, smoke in restaurants, frustration, slow and bad service, whining in the bus (yes Pucko is with us), and serious hangovers.

All cost is self cost, all pain is self pain; if over, we confiscate, if less we ask for more. HashCash under supervision of Big Calculator will handle collection and delegate responsibilities if needed.

SIM, SIM, SIM -or- How to stay connected while in crazy Balkan countries

The good news: **Croatia** is part of the EU and has free roaming for Swedish mobile phones. Yay!

The bad news: **Only** Croatia is part of the EU and has free roaming for Swedish mobile phones. Using your Swedish mobile phone plan in the other crazy hash countries is likely to severely impact your beer budget:

- **Telia** charges 25 kr/min to make calls, 10 kr/min to receive calls, 4 kr to send SMS, and 50 kr/MB for data (max 99 kr/dygn för 50 MB).
- **Tele2** charges 16 kr/min to make calls, 7.95 kr/min to receive calls, 4.95 kr to send SMS, and 41 kr/MB for data.
- **Comviq** charges 7.95 kr/min to make calls, 5.95 kr/min to receive calls, 4.95 kr to send SMS, and 41 kr/MB for data. You can also buy a data package with 200 MB for 195 kr or 1 GB for 295 kr. Both are valid for 7 days.
- **Telenor** charges 9 kr/min to make or receive calls, 4 kr to send SMS, and 39 kr/day for 250 MB of data if you have a prepaid card, *but no extra cost if you have a subscription*.
- **3** charges 11 kr/min to make calls, 6 kr/min to receive calls, 3.74 kr to send SMS, and 5 kr/MB for data.

The better news: Local prepaid SIM cards are cheap and the **West Balkan 6** countries of **Albania**, **Bosnia ♥ Herzegovina**, **Kosovo**, **North Macedonia**, **Montenegro**, and **Serbia** have their own “roam like (almost) at home” WB6 network.

Our hot tip: Get a *pripejd* SIM card in the first cunt(ry) you cum into and use it throughout the rest of the crazy hash trip. **Bring photo ID / passport (original) when you buy it as it has to be registered!** Here are the recommendations from the Ministry of Propaganda that will give you 2-3 GB to play with:

- **Serbia:**
 - *Cheap.* Get **Globaltel's** prepaid SIM card with 2 GB of local data for 299 din. Add a Roaming Net package with 1 GB of WB6 data for 300 din (total ~60 kr).
 - *Easy.* Get **Yettel's** prepaid SIM card with the **Tourist Plan** for 999 din (~95 kr). It will give you 50 GB of data in Serbia for 30 days + 3.5 GB of data in the WB6 countries.
- **North Macedonia:**
 - *Cheap.* Get a **Lycamobile** prepaid SIM card (free) and load it with 400 den (~70 kr). Enter *139*1026# to activate the **Lyca Mega S** plan. You now have 12 GB of data to use in Macedonia and 2 GB to use in the other WB6 countries. Just be aware that Lycamobile can be a bit of a pain to deal with sometimes.
 - *Maybe Better.* Get a **A1** prepaid SIM card for 299 den and add the **A1 Roam Surf Balkan S** package for another 299 den (total ~105 kr). That will give you 10 GB to use in Macedonia and 2 GB to use in the other WB6 countries.
- **Montenegro:**
 - *Cheap & Easy.* Get **m:tel's MRAK** prepaid SIM card with 400 GB national data + 1.11 GB WB6 data valid for 7 days for €5 (~55 kr).
 - *Easy.* Get **One's Prepaid Basic Plus** SIM card package with 500 min/SMS + 200 GB of national data + 3 GB of WB6 data for €10 (~110 kr).

Some operators also offer virtual eSIM cards that you can download and use at the same time as your “real” Swedish SIM card. Go to the operator's store and ask for it if you're interested and have a phone that supports it.
